I doubt that I'm
related to this Ruth
Frantz. Her skin
coloring is darker
than mine and
her features are
very different.

Do you know
any of her relatives
to give this to?

Dear Lorraine,

I got your letter today, and your message on my answering machine the other day. Thank you!

I have a very busy & hectic life right now. And I recently finished a 650 page book (notebook actually) on my maternal grandfather's (Delbert Henderson) ancestors & their descendants — so I have a pretty good idea what you went thru doing 3 vols. I now have to start on my maternal grandmother's (Louisa (Reynolds) Henderson) side.

To tell you the truth I haven't had much interest in my paternal (Grossnickle) side which includes Frantz, etc., mainly because my dad never had much to do with me (long story). But the odd thing is that I keep finding "cousins" and ancestors on my dad's lines even when I'm only really looking for
(cont.)

my mom's lines (and can't find those ^② of course).

I got your name from Frank Neher, 3142 Monterey, Malaga, WA. 98828. He has much more info than I do on the lines your researching.

It sounds like you are very good at genealogy and all it entails.

I just got my first computer (which is a new one) for Christmas. So I'm still in that very dummy stage of trying to learn it. After I learn a little more about it I hope to get "On-Line." When that happens I'll send ^{you} ~~to~~ an E-Mail (or what-ever it is you do — ha! ha!)

You are welcome to have this photo. I bought it just because of the Frantz name & the location — I was hoping I could find a direct descendant of Ruth's or her dad, to give it to. It was at an Antique & Collectable show down this way, about two months ago, the guy who had it said he didn't remember where he bought it from. Thanks again.
Linda Wells

P.S.

I don't know your friend
Pat Stubblefield.

Also - I never use my
maiden name - Grossnickle -

I hate it — wouldn't you?

Everyone always makes fun of
it & I'm not too proud
or happy with ~~that~~ those
connected to that name.
