Dear Lorraine Frantz,

Our former correspondence only consisted of your answer to my letter inquiring of your publication Kith and Kin. I had noticed the announcement in a genealogical publication and being a direct line descendant of Michael Frantz was interested.

At that time I indicated that I would be interested in receiving the book but have hesitated on account of the cash outlay which I cannot justify on my limited budget. The book sounds like it is well worth the asking price and I am also certain that even then you will probably no break even on the bottom line. Our mutual cousin, David Blocker, who also lives in this area is trying to put together a cooperative effort between himself, Ed Peters, Ed Barnhart and myself to purchase the three volumes and then place the books in the library of the Wenatchee Area Genealogical Society. This would rally benefit many descendants of Michael who live in this area.

I am currently serving my third and last term as president of the above society. Your being a 'fanatic' on the subject of genealogy sounds familiar to my wife Verna. She knows how much time I have devoted to the hobby since early 1990 when I caught the bug. That was when about when I received the Neher Family History by Jimmy and Raymond Neher and decided if they could accomplish something like that--I should try the same with my mother's Bourn/Riggs families. Since then I have compiled a PAF data base of about 30,500 individuals. It has been a tremendously pleasant task and I have enjoyed every minute spent.

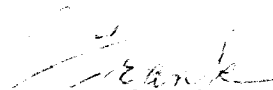

Enclosed you will find a 'book' Some Descendants of Hans Frantz which was created from my data base using the software program GEN BOOK. It contains my direct Neher line from Michael and Magdalena Zug Frantz

but I have not taken the time and effort to enter all of my Neher cousins from the Neher Family History book. (I need a new and larger computer--this little 386 with Windows and PAF with Pafability added, and only 151 hard drive with 8 RAM has slowed down and spit out some ugly messages at times) Also enclosed is a copy of my pedigree chart which will show my George Bowman, Mary Hite, Riggs, Griffith, Swearingen and Bourn(e) ancestry.

Any errors you might notice that need correction would be appreciated.

It was very good to hear from you and please keep in touch.

Sincerely,

Frank Neher

Dear Frank & Verna

Sincere Thanks for  
all the valuable family  
information that  
you shared with me.  
I really, really  
appreciate the neat,  
easy-to-read printouts.

I'll check for add-  
itions and corrections  
as I enter the data  
into my computer. I'll  
let you know.

It was nice to  
chat with you on the  
phone about our love  
of genealogy. Good

luck and best wishes  
with your research.

Have you gotten  
your hands on the  
set of Frantz books  
that David Blocher  
has?

Thank you.

Frank, I re-read  
some of my own  
published material  
and I owe you an  
apology. The book  
Matthias Frantz Fam-  
ily of Berks County, PA  
does say that Christ-  
(over)

ian Frantz was son of  
Mathews, <sup>23327-002 E-1</sup><sub>59323</sub> son of Hans.  
I quoted that in my  
material but didn't  
give it much value  
because no source.  
Oops! Sorry I challen-  
ged you on that.

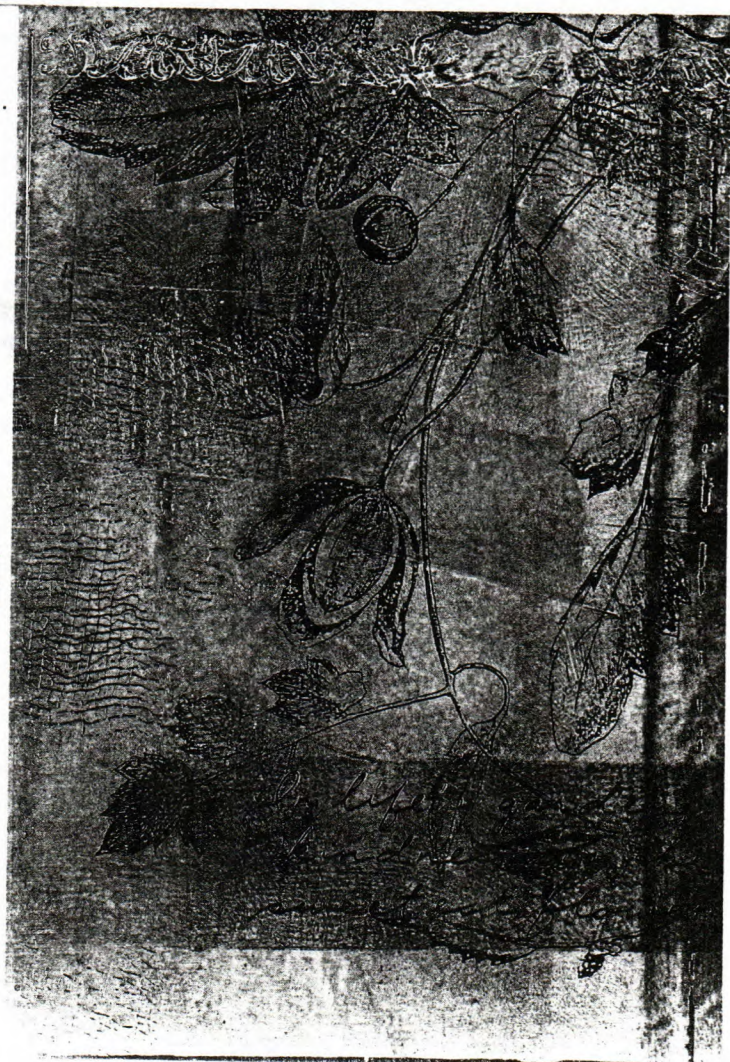

Please keep me  
informed when you  
find new Frantz info.  
I'm delighted to meet  
a new "cousin"

Best wishes from  
Lorraine

Dear "cousin" Frank,

FIRST: My apology for not getting back to you sooner. I recall that we had a nice phone conversation. I should have tackled your material sooner and written weeks earlier. Sorry!

SECOND: I was having so many problems with my new computer that I wasn't getting any genealogy done. I finally got a different computer in March. However, then I was preparing for a vacation in Indiana -- so it has been a merry-go-round for many months.

I went to Old German Baptist Brethen (OGBB) Annual Meeting in Indiana, in May. It was wonderful (as always). I had an opportunity to meet folks that I've corresponded with, folks who have shared their family history with me. I also did some research but that wasn't my objective. I wanted face-to-face contact with "cousins" that I had never met.

I returned home with a lot of new family information. I was anxious to process all that new information and get it into the computer. I did! Then I tackled the stack of information that had been piling up on the floor near the computer. (Yours included.)

I sat down with your material right beside my computer and began to check what you have against what I have. Hate to tell you this, but your FRANTZ information differs from mine. I don't claim to have "a corner" on Frantz family information but I've been collecting from many sources for many years. I document where every bit of data comes from. As I went along, I started printing family group sheets so I could show you what I have on a family when you and I have conflicting info. I quickly saw that I'd be printing out hundreds of pages.

Frank, may I suggest that you get your hands on the set of books Frantz Families -- Kith & Kin that was mailed to David Blocker over one year ago?! Maybe you would like to sit down with the books beside your computer and check your data against what I published. As you go along, checking the information, check the superscripted number by each name and date and check my source by turning to another section of the books, to the "Notes and References." PLEASE, PLEASE, let me know when you find errors in my compiled material.

Re: Computers. I have been buying new computers every few years as my "current" computer outgrew my genealogy needs. In the beginning I had an IBM-PC jr. followed by an "AT." Then a 386, followed by a 486. In August 1996, I bought a new Compaq Presario Pentium -- and had nine months of nightmare problems. I suggest: NEVER, NEVER, NEVER BUY A COMPAQ COMPUTER!!!! Not only the possibility of a "lemon" but you pay \$35.00 an hour, up front, on a credit card, to get technical support. When I finally contacted Customer Relations, they were rude and did not help with the problems. Finally, after the computer had been in the shop three times (three weeks each time), I was able to trade for another. I wanted my money back but Best Buy wouldn't refund so I exchanged for a Hewlett Packard. I haven't had any problems.

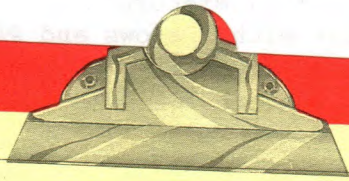

Too bad you aren't closer to me. I have a 486 computer sitting there begging for some attention. (It will never get it from me!) It was a very serviceable, hard-working computer but I out-grew it. It has all our family names in it, in the Roots 3 genealogy software program.

I've upgraded to Roots5 which now has the new name of Ultimate Family Tree. I'm trying to learn those features -- which are entirely different from Roots3. However, with UFT I will be able to send files out on the Internet plus lots of things I can't do otherwise. Sometimes I wish I had been content with the 486, Roots3, and rather "plain Jane" genealogy. I'm constantly having to "stretch" to learn how to do things on the Internet, learn a new genealogy software program, etc., etc.

I'm almost 63 years old. I don't like to make a lot of changes! I want to comfortably sit at my computer and "do" genealogy. I want to travel to areas when my ancestors, or their descendants, lived (live). Don't rock the boat!! I am still working full time and it looks like it may be a couple of years before I retire (at age 65). At that time I think I'd like to move to Indiana where I can do a lot of research in libraries and court houses -- closer to the source. Maybe I'll be "stuck" in Lancaster for the rest of my life. I trust my Heavenly Father to meet my needs so if I'm to move, God will open the way. Meanwhile, I have a "for sale" sign in the window of my mobilehome and I'm processing through stuff. I'm giving things to the thrift shops and I'm throwing away things with no value. I'm trying to get "caught up" with my backlog of genealogy and throw away duplicates and outdated printouts. My mobilehome is crowded (beyond imagination) with many, many years collection of family history. I have a wonderful private library! PRAISE THE LORD. Imagine, if you will, two large four-drawer file cabinets full of specific surnames and about seven bookcases full of books, or notebooks, full of information. I have three computers and dozens of kinds of software (and their boxes and manuals).

Well, I've "bent your ear" long enough. Best wishes to you and yours. Good luck with your family history. Let me know when you find places in Frantz Families -- Kith & Kin where you can supply "additions and corrections." I'll be extremely grateful!

Warmest regards from "cousin" Lorraine

# Reading This Book

If, while reading the following pages of this book, the reader will keep these few facts in mind, a much clearer understanding of the contents will result. The format or style used in this book is known as the **Modified Register System**, which has been refined by the National Genealogical Society.

Three types of numbers are used: one to uniquely identify the individual, one to indicate the generation into which that person falls, and one to denote his or her birth-order within the nuclear family. The identification numbering system used in this book is called **By Generation**. The starting person is 1, his first child is 2. All the children are listed as generation number two, the grand-children are listed as generation number three and so on. Each person is assigned an ID number in sequential order by generation.

When an individual is introduced in his/her separate sketch, the name appears in boldface letters with the surnames in all capital letters. The name is preceded by the identification number. The last given name is followed immediately by a superscript number indicating the number of generations from the starting individual in this book. In parentheses following the name is a list of direct ancestors back to the starting individual. Only the given name is listed, followed by the generation number in superscript.

When the list of children is presented, the plus (+) sign indicates that more about this child will be presented in his/her separate sketch. The ID number is printed, followed by M/F indicating the sex. Next a small roman numeral in front of the name designates birth-order. Next the name is followed by the birth and death dates.

The index is arranged alphabetically by surname. Under each surname, the given names are alphabetically arranged. The number to the right indicates the page where this name appears. The wife appears under her maiden name and under her married names with her maiden name in parentheses.
