Dear Mrs. Lorraine Frantz Edwards,

I have been researching the name of Frantz for many years and I could always use more information. My third cousin, Lowell Beachler suggested me to get in contact with you for information on the Frantz lineage.

I tie in with the Frantz lineage when my Great Great Grandfather, Henry B. Brubaker married Elizabeth Frantz. Their daughter, Frances, married my Great Grandfather, David Calvin Blocher.

I read that you are ready to print a big book of the descendants of Michael Frantz. When is this project expected to be completed? I am preparing for a 20 volume set of books to print, with each volume tracing a different lineage. This will be in the distant future, aimed at about 2010 (after the current books are out-dated! They will be uniformed and color coded (various shades of blue for dad's side, various shades of red for mom's side, and various shades of green for those pertaining to my mother's adopted father). Anyway that is way in the future, after more prominent information is discovered.

Enough soup-boxing for now. If you have your data on computer, I would prefer a Gedcom file of what you have, that way I can merge it into my own. I would do the same like wise.

I look forward to receiving your reply.

David Alvin Blocher

1 pg ahnentafel for Frances Brubaker #1013

I said I'd love his branch of the tree in printed form. I didn't offer to send any info to him on disk.
